

What went well?

What should we keep doing?
What should we celebrate?
Where did we make progress?

**POLITICAL
JUGGERNAUTS: A
QUANTITAVE
ANALYSIS OF
CANDIDATES IN
THE 2019 LOK
SABHA
ELECTIONS**

What went poorly?

Where did we have problems?
What was frustrating to us or others?
What held us back?

People should not receive money to sell their votes during election

There are more problems in election time like improper election conducting faculties and poor transport

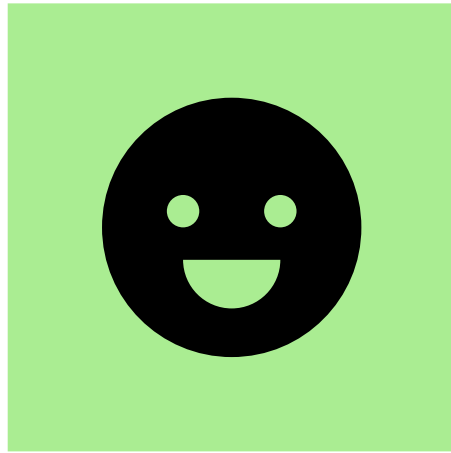

We should encourage people to vote actively during election time

All candidates those who are participating in election should save their policy which was given after winning in election

Handicapped was not given with improper Transport faculty makes so much frustration during election

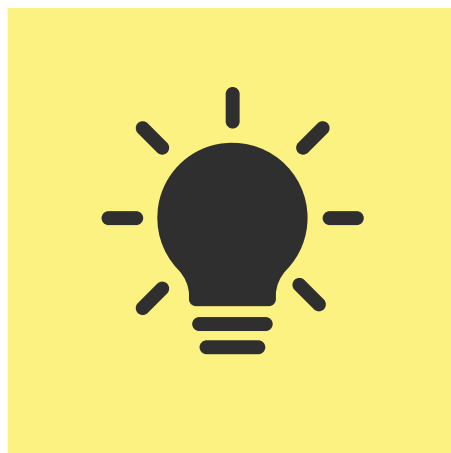

When compare to 2014, 2015 voting rate has been decreased due to inefficiency of government action plans for public welfare

543 of 545 seats in the Lok Sabha.

The winning parrry has 272 seats needed for a majority.

In 2019 Lok sabha election the voting percentage is 67.40%.

In 2019 election total number of vote is registered in 911,950,743.

Government should introduce non governmental organization to enhance the election process.

Government should introduce voting system properly without any failure in machines and technical error.

people should actively note the moves in election and should select the correct candidates without getting any money.

people don't have intention of why to vote and should ask question against politicians to ensure democracy still alives...

every people must vote for 100% without fail during the election.

we should make voting awareness among people to increase voting

What ideas do you have?

What ideas do you have for future work together?
Where do you see opportunities to improve?
What has untapped potential?

How should we take action?

What do you believe we should do next?
What specific things should we change?
What should extend beyond this meeting?
